

Chronic Degenerative Diseases

Chronic Degenerative Diseases

Presented by Mikhael Adams BSc ND

2 Day Session

Seminar Recorded Jan. 20-21, 2007

Take a very detailed and successful step by step approach to using all the therapeutic modalities to treat patients with cancer and auto-immune diseases such as M.S. and Lupus. Learn more about the critical points in a treatment plan and the reactions to treatment that indicate that a patient is healing. Better understand the reactions that indicate that there is a blockage to healing and how to overcome these blockages.
