

PEDIATRIC HEALTH

Natural Cures for Common Childhood Ailments

2 Day Session

April 30 – May 1, 2011
CALGARY, AB

Presented by:
Robert Abell ND LAC

This seminar will focus on the essential elements of pediatric care and case management from birth to adolescence using simple, safe and extremely effective principles. Treating common childhood ailments naturally is a crucial element in raising healthy children with strong immune function and sets them on a secure path to life as healthy adults. As a healthcare provider, you are an excellent source

of advice and support for parents searching for a natural solution to support their child's health and well being, and in reducing the increased risks of disease and learning disorders in later years.

Dr. Abell has studied with one of the most learned pediatricians of our time – Dr. Lenard Smith of Portland, Oregon. This seminar combines the remarkable knowledge of Dr. Smith and the brilliance of the late Dr. Gérard Guéniot in his understanding of childhood development to provide the practitioner with the knowledge, tools and confidence to develop simple but highly effective and successful treatment plans for children. Numerous case studies will be presented.

The aim of Seroyal Continuing Education is to assist in building more effective and successful patient treatment strategies. Any reference guides provided are to be used as an adjunct to Seroyal Continuing Education and are not intended to be utilized as a diagnostic tool nor replace any other required education. All remedies indicated in Seroyal Continuing Education are potent medicines that can have profound therapeutic effects on patients. As with any intervention, the dosage may need to be adjusted for those with chronic conditions, very sensitive individuals and those taking multiple medications. Practitioners are solely responsible for the care and treatment provided to their own patients. The information provided by the speaker or speakers in the Seroyal Continuing Education program together with any written material provided do not necessarily represent the views of Seroyal and are not intended as medical advice or an endorsement of any products. This information is for professional use only and is not meant to diagnose, treat, cure, prevent any disease or replace traditional treatment, and has not been evaluated by the FDA or Health Canada.

No refunds for any reason one month prior to any Seroyal Continuing Education event. All registrations subject to approval by Seroyal management. All Seroyal Continuing Education events are available on a first-come, first-serve basis.

Seroyal proudly supports the Foundations of Naturopathic Medicine Project

Leading North American holistic scientists and key academic and scientific thought leaders in the naturopathic scholastic community have committed to producing a global textbook on the philosophy, theory and principles of naturopathic medicine. It will provide an extensive explanation of how to think clinically within the practice of naturopathic medicine and conclude with implications for public health policy, global health and international naturopathic medicine, and implications for a renewal of public health practice.
