Presented by:
Robert Abell ND LAc

Attending this seminar will allow you to advance your patient evaluation skills and gain a concrete understanding of the concepts and application of Biotherapeutic Drainage™, resulting in efficient, more permanent and successful outcomes for your patients.

The goal of this seminar is to introduce you to the concept and philosophy of Biotherapeutic Drainage™ – a must when treating

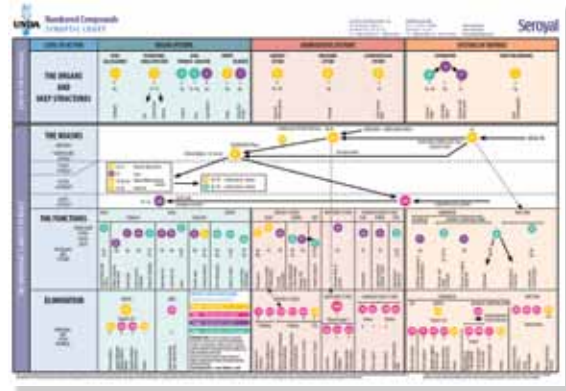

chronic and degenerative conditions and fundamental in accelerating the healing response in order to achieve and maintain optimum health. The UNDA Numbered Compounds are a unique combination of synergistic homeopathic dilutions of plants and minerals, formulated on the principles of Chinese medicine, anthroposophy and miasmatic information. Dr. Abell will explain the technique of using these organ-specific remedies to open the emunctories to allow for the discharge of toxic material.

The UNDA Numbered Compounds have the unique ability to act on the individual's terrain while impacting the physical, emotional, mental and spiritual level. Dr. Abell will also discuss the clinical use of Gemmotherapy, a phyto-therapeutic modality with a biochemical action. Dr. Abell will present case studies including stroke, Parkinson's disease, asthma, bronchitis and autism. He will provide numerous treatment guidelines for various conditions using the UNDA Numbered Compounds, Gemmotherapy, Gammadyne Oligo-Elements, Schüssler Tissue Salts, Plexes and nutritional support.
