**CONTINUING EDUCATION CREDITS
APPLIED FOR**

More than fourteen hours of continuing medical education. Fee includes a manual (sent in advance) and a complete CD recording of this teleconference series.

This 7 session teleconference series is designed to expand your knowledge and introduce the use and applications of Phytotherapy, Oligo-Elements, Plexes and Schüessler Salts.

Through his extensive experience, Dr. Abell will review how to incorporate these Biotherapeutics into simple and easy-to-follow treatment guidelines, ensuring successful results in everyday practice. Each of these biological therapies are individual treatment modalities, but when utilized in a systematic approach using Biotherapeutic Drainage™, they become a synergistically advanced form of medicine.

Incorporating each of these therapies into your practice will provide you with the tools and protocols to treat chronic and acute conditions that past experience posed as challenging and in some cases, untreatable.

KEY LEARNING HIGHLIGHTS

- What are Phytotherapy, Oligo-Elements, Plexes, Schüessler Salts and what are their primary actions?
- Review the philosophy of Biotherapeutic Drainage™ along with a brief discussion of terrain (Miasms, Temperaments, Constitutions).
- How do these therapies fit into the overall drainage approach?
- Key foundations of Phytoembryotherapy.
 - Methodology of mother-macerates manufacturing.
 - The importance of Phytotherapy and D1 Gemmotherapy in clinical practice.
 - Use of single and complex therapies in practice.
 - Ease of use in daily practice.
- Learn the primary actions of the Oligo-Elements and Schüessler Salts.
- Practice development of thorough treatment plans including these adjunctive therapies.

Seroyal proudly supports the Foundations of Naturopathic Medicine Project

Leading North American holistic scientists and key academic and scientific thought leaders in the naturopathic scholastic community have committed to producing a global textbook on the philosophy, theory and principles of naturopathic medicine. It will provide an extensive explanation of how to think clinically within the practice of naturopathic medicine and conclude with implications for public health policy, global health and international naturopathic medicine, and implications for a renewal of public health practice.
