## Treating the Terrain: Clinical Applications for the Endocrine System & Women's Health from Puberty through Menopause & Beyond

1 Day Intensive

**Prerequisites:**

- Solid understanding of Homeopathy and Single Remedies

**Saturday, April 16, 2011  
TORONTO, ON**

Presented by:

**Verna Hunt BSc DC ND**

Many gynecological pathologies are a reflection of the imbalance in our world. From difficulties through puberty, irregular cycles, dysmenorrhea, cervical dysplasia, thyroid disorders, choices regarding birth control and fertility treatments, ovarian cysts, uterine fibroids, menorrhagia, hot flashes and osteoporosis, most women are affected on some level.

How can our medicine work deeply to restore a state of endocrine homeostasis to our patients and support life long vibrant health?

In this seminar, Dr. Hunt will look at the importance of treating the terrain to access the self-regulating capacity of the endocrine system, and how to utilize the lunar/moon cycle to assist the rebalancing with respect for the healing power of nature.
