

Dr. Dickson  
Thom, D.D.S., N.D.

Dickson Thom, D.D.S., N.D. graduated from the University of Toronto Faculty of Dentistry in 1974. He obtained his first Doctor of Naturopathic Medicine degree from the Ontario College of Naturopathic Medicine in 1986, and in 1989 he completed a second Naturopathic degree from the National College of Naturopathic Medicine (NCNM) in Oregon. Dr. Thom is a full-time Professor and the past Chair of Naturopathic Medicine at NCNM. He teaches clinical and physical diagnosis, gastro-enterology, neurology, x-ray practicum and practical endocrinology. He is also a clinical supervisor, and teaches various electives on Biotherapeutic Drainage™. Dr. Thom lectures extensively on health and business topics and has written and collaborated in the writing of many articles and books dealing with drainage, homeopathy and nutrition. Dr. Thom has studied extensively with Gérard Guéniot, M.D. follows his teachings closely and incorporates Dr. Guéniot's work into his seminar lectures and into his private practice in Portland, Oregon.

# Seroyal Seminar Series: 08–09

CONTINUING EDUCATION TO ENHANCE YOUR PRACTICE:

DEDICATED TO MAKING A DIFFERENCE IN PEOPLES' LIVES.

## Humanity's Greatest Threat: Advanced Modalities and Supportive Care for Your Cancer Patient - Workshop

While we may rejoice at the advances in modern technology and the resources available, Cancer continues to be humanity's major threat. Although research is being conducted in every part of the world, no ultimate solution has been found, or is even in sight. As such, the role of the alternative practitioner has taken on heightened importance.

This seminar will look at the present model and how alternative therapies can be added to the patient's current therapies to enhance outcomes. The utilization of energetic modalities such as single Homeopathic Remedies, Gemmotherapy, Tissue Salts, Organotherapy, Flower Essences and Unda Numbers have consistently and successfully demonstrated positive clinical effectiveness in treatment outcomes. Using case examples this workshop will guide you through the utilization of these modalities

If you see chronically ill patients in your practice, especially cancer patients, this workshop will facilitate an approach to supporting them from a humanistic and natural approach.

### YOU WILL LEARN:

- The basic understanding of the present conventional management of cancer
- How to assess, evaluate & develop a successful treatment plan supporting your cancer patient with non-conventional Drainage Therapies
- How to utilize both conventional and Drainage therapies in the co-management of cancer patients
- To confidently help all patients coping with cancer
- Current data relating to the role of antioxidants

### TREATMENT GUIDELINES PROVIDED FOR:

- Breast cancer
- Lung cancer
- Prostate cancer
- Colon cancer
