# Seroyal Seminar Series: 08–09

CONTINUING EDUCATION TO ENHANCE YOUR PRACTICE:

DEDICATED TO MAKING A DIFFERENCE IN PEOPLES' LIVES.

## Successful Case Management of Chronic Disease Workshop

This workshop will present a 2-stage approach to the successful case management of chronic disease.

**Day 1** will focus on the reasons for the continued escalation of chronic diseases via an understanding of childhood development. An overview of terrain – Miasm, Temperament and Constitution will be presented along with 7 stages of the Brain Protocol.

**Day 2** will utilize the principles from Day 1 to perform hands-on case analysis so that an understanding can be gained for all patients in your practice. This workshop will be in the form of small group discussions regarding cases and then larger group discussion incorporating the principles necessary for successful case management. There will be case discussion utilizing the 7-stage brain protocol to address the complexities involved with case management at this very profound healing level.

SEATTLE, WA

OCT. 18–19/08

CALGARY, AB

APR. 4–5/09

### YOU WILL LEARN:

- An appreciation for management of even the most complex chronic disease cases
- How to apply knowledge of Miasm, Temperament, Constitution to clinical cases
- When to use the 7-phase brain protocol in clinical practice for patients with chronic disease
- When NOT to use the brain protocol
- The utilization of energetic therapies in managing chronic disease
- How to create a plan on the first visit for long-term strategic treatment of chronic disease patients

### TREATMENT GUIDELINES PROVIDED FOR:

- Multiple chemical sensitivity, Chronic Fatigue – after years of the brain protocol
- Multiple Sclerosis
- Acquired Sycosis and management of an ovarian tumor
- Celiac disease
- Varicosities
- Phlebitis

It is important to recognize that poor health is not an inevitable consequence of aging.<sup>1</sup>

Chronic diseases disproportionately affect older adults and are associated with disability, diminished quality of life, and increased costs for health care and long-term care.<sup>2</sup>

Clearly, if we are to help older adults stay healthy and independent and stem rising health care costs, an increased focus is needed on preventing disease and promoting health among this population.
