

# Seroyal Seminar Series: 2010

CONTINUING EDUCATION TO ENHANCE YOUR PRACTICE

## **NEW** Assessment and Treatment of ADHD and Autism, including Asperger's Syndrome 1 Day Intensive

Presented by Robert Abell ND LAC

Toronto, ON Saturday, February 27, 2010

The goal of this one-day intensive is to provide a solid foundation in the etiology and pathogenesis of Attention Deficit Hyperactivity Disorder (ADHD) and Autism, including Asperger's syndrome. Autism and ADHD are on the rise across North America. These neurological disorders are the fastest-growing developmental disability in the U.S., affecting 1 in 150 children. In February 2007, the Centers for Disease Control and Prevention issued their Autism and Developmental Disabilities Monitoring (ADDM) report which concluded that the **prevalence of autism had risen to 1 in every 150 American children**. Autism is more common than juvenile diabetes, childhood cancer and AIDS combined. Does this increase have to do with increased awareness or is it a true increase? Both autism and ADHD are complex conditions that conventional medicine struggles to treat. Learn about the imperative role of Biotherapeutic Drainage™ and the unique Rebalancing and Harmonizing Program, or "brain protocol", in the treatment of these disorders.

Dr. Abell will share years of clinical experience in the treatment of Autism and ADHD. He will demonstrate autism's possible relationship to vaccination, viral infections, heavy metal toxicity, environmental toxins, digestive health and nutrition. Through case discussions he will provide direction on the application of Biotherapeutic Drainage™, Gemmotherapy, unda® Numbered Compounds, nutritional support and other biotherapeutics in restoring patient health and well-being.

Dr. Robert Abell, ND, LAC

**Robert Abell ND LAC** was awarded his Bachelor of Science degree in Exercise Physiology from the University of Colorado, Boulder in 1985. He then received his Doctor of Naturopathic Medicine from the National College of Naturopathic Medicine (NCNM) in 1993 and while attending NCNM, Dr. Abell was also awarded his Masters in Chinese

Medicine and Acupuncture from the Oregon College of Oriental Medicine in 1994. He currently presents a lecture series on various topics in North America, focusing on Biotherapeutic Drainage™. Dr. Abell resides in Austin, Texas where he and his wife Lisa have a clinic. They also own a large multidisciplinary clinic in Orange County, California. Dr. Abell uses Biotherapeutic Drainage™, homeopathy, acupuncture and auricular medicine as his primary therapeutic tools.

### KEY LEARNING HIGHLIGHTS

- Learn methods of assessment, treatment and prevention of these disorders.
- Learn the importance of the theory of Miasm, Temperament and Constitutional prescribing for effectively treating these disorders.
- Become skilled at effectively reversing the process of neuro-developmental diseases without suppression and in a non-invasive manner.
- Complement your knowledge and increase your therapeutic skills.
- Current theories on causative factors of autism.
- Insight into the effective application of Biotherapeutic Drainage™ techniques – essential to treating these disorders.
- Learn the unique therapeutic application of the Rebalancing and Harmonizing program, especially when addressing neuro-developmental disorders.

### AGENDA

- AM
- Introduction to unda®, Biotherapeutic Drainage™ and unda® Numbered Compounds.
  - ADHD – causes and treatment.
  - Autism – causes and treatments.
- PM
- Application of unda® Numbered Compounds for ADHD and Autism.
  - Supplemental Remedies for ADHD and Autism.
  - Introduction to the Brain Protocol.
  - Brain Protocol; Case Study using the Brain Protocol.

*Event begins at 9:00am, with a one hour lunch and concludes at 5:30pm.*

### CONTINUING EDUCATION CREDITS

- 3.25 General BDTT-N CE credits (ON)
- 6.5 hours of CNPBC CE credits (BC)
- 6.5 hours of SANP CE credits (SK)
- 6.5 hours of MNA CE credits (MB)

### Seroyal proudly supports the Foundations of Naturopathic Medicine Project

Leading North American holistic scientists and key academic and scientific thought leaders in the naturopathic scholastic community have committed to producing a global textbook on the philosophy, theory and principles of naturopathic medicine. It will provide an extensive explanation of how to think clinically within the practice of naturopathic medicine and conclude with implications for public health policy, global health and international naturopathic medicine, and implications for a renewal of public health practice.
