

# Seroyal Seminar Series: 2010

CONTINUING EDUCATION TO ENHANCE YOUR PRACTICE

## **NEW** Pediatric Health: Natural Cures for Common Childhood Ailments 2 Day Session

Presented by Robert Abell ND LAc

Toronto, ON April 10-11, 2010  
Portland, OR May 22-23, 2010

This seminar will focus on the essential elements of pediatric care and case management from birth to adolescence using simple, safe and extremely effective principles. Treating common childhood ailments naturally is a crucial element in raising healthy children with strong immune function and sets them on a secure path to life as healthy adults. As a healthcare provider, you are an excellent source of advice and support for parents searching for a natural solution to support their child's health and well being, and in reducing the increased risks of disease and learning disorders in later years.

Dr. Abell has studied with one of the most learned pediatricians of our time – Dr. Lenard Smith of Portland, Oregon. This seminar combines the remarkable knowledge of Dr. Smith and the brilliance of the late Dr. Gérard Guéniot in his understanding of childhood development to provide the practitioner with the knowledge, tools and confidence to develop simple but highly effective and successful treatment plans for children. Numerous case studies will be presented.
