### Seroyal proudly supports the Foundations of Naturopathic Medicine Project

Leading North American holistic scientists and key academic and scientific thought leaders in the naturopathic scholastic community have committed to producing a global textbook on the philosophy, theory and principles of naturopathic medicine. It will provide an extensive explanation of how to think clinically within the practice of naturopathic medicine and conclude with implications for public health policy, global health and international naturopathic medicine, and implications for a renewal of public health practice.
